

Skelmanthorpe Planner's notes

Thanks to everyone who turned up and competed. Skelmanthorpe has a few snickets which enabled me to try and give you a few route choices. Apologies to anyone who decided to come on Sunday. Due to the football match it meant the car park was full and the adjacent streets very busy with parked cars.

More apologies to runners on the Medium and Long courses, the route through the industrial units (from or to Control 43 (3rd on Medium and 10th on Long) had a locked gate, not much of a problem on Medium just had to modify your route choice but big disadvantage if you'd run up through the units on the Long course to find the locked gate. I've been visiting a factory on that estate on a regular basis for over 20 years and have never seen that gate locked before.

Hope you enjoyed your run and look forward to seeing you at Luddenden Valley next week

Guy Goodair
