

Bradley and Fell Greave

Parking is at The Woodland Glade Sports Centre, 62 The Green, Huddersfield HD2 1QB
[Google Maps](#) or [Streetmap](#)

This urban course is split between the residential areas of Bradley, Deighton and Sheepridge in Huddersfield. A mix of 1950s local authority housing, 1970s private housing and modern housing estates interspersed with woodland, some of it runnable, and other amenity space. There should be plenty of on and off road options, it may be possible to complete the courses on road, but I recommend off road shoes to give plenty of options.

All maps are 1:7500. Three lengths, Blue, Green and Short Green.

Please note the out of bounds area associated with the sports fields between Bradley and Deighton.

Also note the access to Deighton Sports Centre from Deighton Road is out of bounds as the Council closes the gates from time to time. There are other ways to access all roads from within the Deighton Centre complex on other rights of way.

The activity uses the MapRun app technology. If you have not used this before, please read the notes on the MapRun page of the EPOC website. This is an official British Orienteering activity. Neither East Pennine Orienteering Club or the course planner can be responsible for accidents. You take part at your own risk. Take care whilst running in the urban environment. Please also ensure good social distancing behaviour

This is my first try at planning a MapRun, I hope you enjoy it. Martin Wood
