

Golcar Urban Organisers Comments

The Scout and Community Centre provided an excellent base for this event, with (some of the) parking, assembly, start and download all in the same spot. There were relatively few entries so I don't think anyone had to park miles away. The indoor space was suitably airy for this stage in COVID guidelines and we could operate a one way system at busy times. The start lanes proved to be a bit tricky as hard standing didn't provide much room, without spreading onto the car park – apologies to anyone who found this a little too cosy in these days of social distancing.

Ahead of the event I was inundated with offers of help and all volunteers arrived promptly and performed their tasks with expected experience and efficiency – thank you all.

The weather was kind to us – not too hot and no rain. What more could we ask?

As a 'newbie' to the role of organiser I was just glad to see everyone back safe and sound, and mostly smiling!

Gilly
