

Golcar Planner's Comments

Hope you enjoyed the Golcar Ginnels as well as the other parts of Golcar. We had a few problems with road works near the event centre, the Colne Valley Museum (which the 3 longer courses passed on their way to the first control) were celebrating their 50th anniversary, there was a big wedding in the parish church too. I heard a whisper that elderly orienteers don't like long legs (no mention in BOF guidelines on this) With no apology I had long legs on every course except yellow; it gives more route choice. Having planned over 20 events in the last 43 years I think it's time to step down and let younger orienteers have a go, it's easier than you think and help is willingly given.
