

Planners comments.

I hope everyone enjoyed their day out in Honley Woods despite the weather. The woods do have some areas of steep, rough and rocky terrain and passing through these areas is unavoidable. In these areas I aimed to offer a choice of routes for those who did not want to contour, with the option of descending or climbing to a path. Hopefully this eased your passage through the rougher parts of the woods. It was a bonus to be able to get more courses in to the eastern plateau area which looked stunning at 8am Sunday morning when the sun was out.

Thank you to all those who passed on their enjoyment of their run with a positive comment/thanks at download.

A personal thank you to Jonathan for his supportive and constructive controlling, to those who helped collect controls in the snow and to Jackie and Neil for organising.

Simon Martland
