

Beaumont Park MapRun

Parking on Beaumont Park Road with the Start and Finish just inside the main entrance. HD4 7AY

The map has been radically updated with a scale of 1:4000 and 2.5metre contours.

The area is a great example of a Victorian park with gardens, water features, grottos and viewing points. The area is bisected by the disused Meltham branch line which was cut through the hillside. The result are some steep sided crags though not a danger to runners. On the lower slopes are runnable woodland and an interesting graveyard.

The steepness of the area does make the MapRun slightly less accurate but shouldn't affect your enjoyment in what is a lovely area.

There are four courses

Blue	3.9km	150m
Green	3.3km	125m
Short Green	2.3km	100m
Orange	2.0km	80m

You will find the event on the MapRun app under UK – West Yorkshire – Beaumont Park EPOC.

The map and courses have been prepared by Richard Payne with all the MapRun work by Neil Croasdell
