

Controllers Comments

Having controlled several events planned by Jackie I knew everything would be ok for the Dalton event. This proved to be correct and there were several favourable comments. It isn't the most salubrious or technical of areas but Jackie managed to make the most of it with some good turning controls and route choices.

Apologies for the confusion as to whether the end of the path was clear or not to the west of 94. A tree, a contour line and pavement edge made it look like the fence continued across the path. Fortunately, I don't think it made any bearing on the times taken.

Bob managed the organisational side well despite finding out last minute that there were several rugby matches being held that morning.
