

Planners Comments

Not the most complicated of area but having had a successful MapRun event there during Covid we decided to use it though didn't know at the time it was going to be used as a UK Urban League event.

Comments were quite positive despite the uphill finish. We did try to get permissions to use schools at the eastern side which would have meant a downhill finish but were unsuccessful. Apologies for those who suffered the brambly ride. I am afraid I didn't go down it otherwise I would have trimmed them back.

The admin side run by Jackie worked well and thank you to the control collectors which meant we were all homeward by 2.30.

Thank you to my wife Jane for help in putting out and collecting the controls.

Finally, thanks to Mike for his helpful advice, before and during the event.

Richard Payne
